

# VOLKSWAGEN

AKTIENGESELLSCHAFT

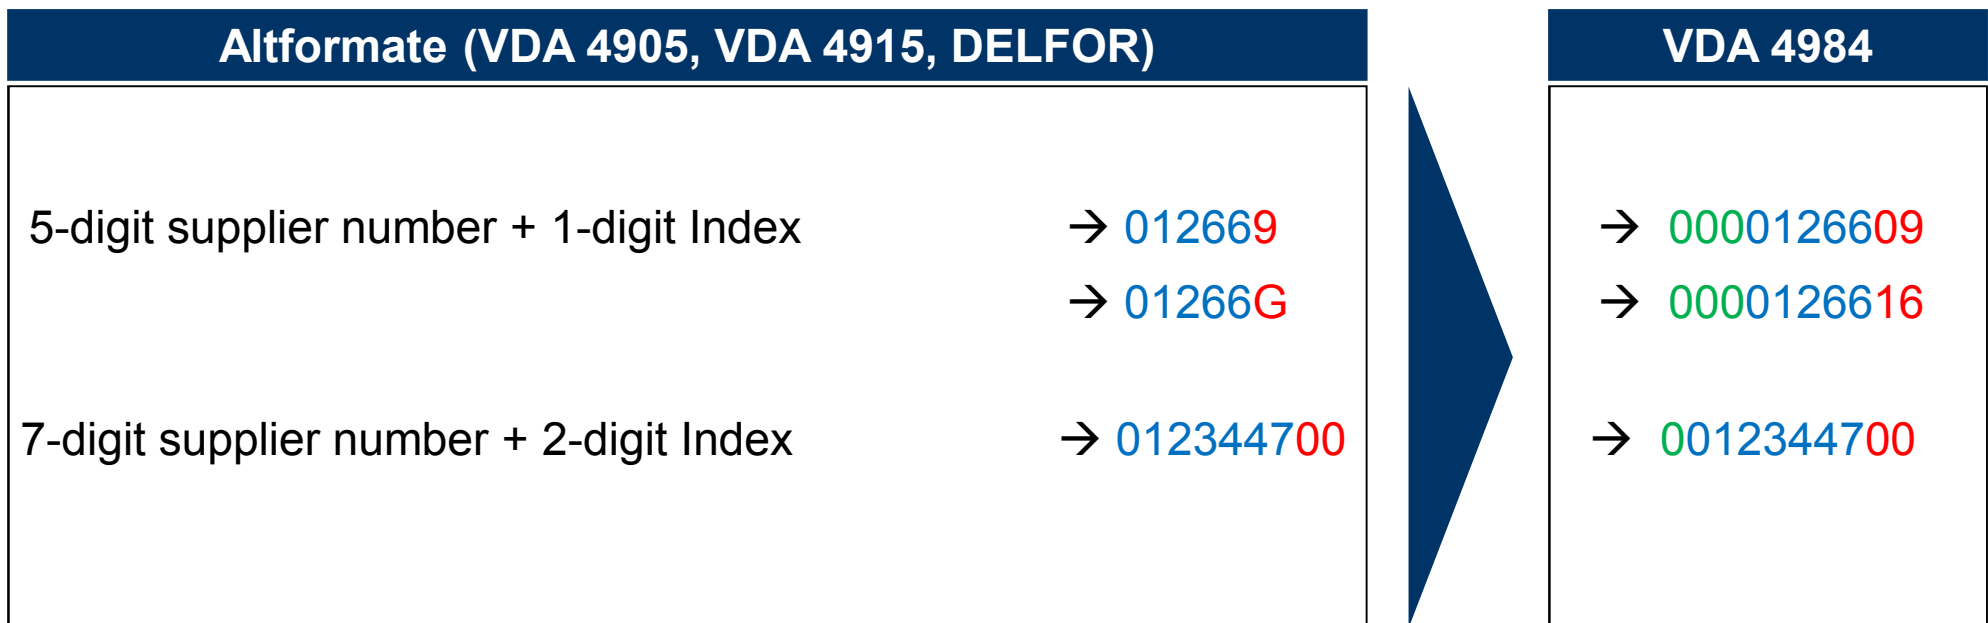

## Implementation of the Global Messages at the VOLKSWAGEN Group

Supplier number format in the new VDA4984 (Global DELFOR) and VDA4987 (Global DESADV)

Team EDI-Standardisation

## Supplier number format in the new VDA4984 (Global DELFOR) and VDA4987 (Global DESADV)

VW and AUDI will replace the current supplier number format by a 10-digit format. With the implementation of the VDA4984, only the new, 10-digit supplier number will be sent.

## Consequences of this change on the delivery and transport documents (ASN)

Following rules apply for the respective ASN formats:

### VDA 4913

- Only the last 9 digits of the 10-digit supplier number is taken from the VDA4984

The 2-digit numerical index must **always** be sent (Record 711, Field 4)!

### EDIFACT DESADV

- The 10-digit supplier number is taken from the VDA4984 and transmitted in the ASN

The 2-digit numerical index must **always** be sent (Segments LOC+9, NAD+CZ)!

VDA 4984	VDA 4913	EDIFACT DESADV
0012344700	012344700	0012344700
0000126616	000126616	0000126616

## Workaround for the supplier number format of the delivery and transport documents (ASN) - old format

Following workaround solution is in place regarding the display of the supplier number in the current ASN-Formats:

### VDA 4913

- Transmission of the 6- or 9-digit supplier number from the old call off formats

### EDIFACT DESADV

- Transmission of the 6- or 9-digit supplier number from the old call off formats

VDA 4984	VDA 4913	EDIFACT DESADV
0012344700	012344700	012344700
0000126616	01266G	01266G

- **The workaround solution is only accepted on the old ASN formats, they are not allowed in the VDA4987!**

---

## Which brands are affected by the format change in the length of the supplier number?

- The change concerns your supplier number for the **Volkswagen, Audi and Audi Hungaria** brands. These brands will use the new 10-digit supplier number format.
- **No changes** will be carried for your supplier number for these brands:

Bentley , Lamborghini, SKODA, SEAT, Volkswagen Group Rus, Volkswagen of America, Porsche AG (only plant Osnabrück), Volkswagen India Privat Ltd., Volkswagen de Argentina, Audi de México
